DETAILED ACTION

Claims 1-8, 46-47 are pending.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8, 46-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hadvary et al (US 4,598,089).

Hadvary et al teaches a process which is analogous to the claimed invention wherein lipstatin is prepared by fermentation and extraction from the fermentation broth, then, lipstatin is hydrogenated in the presence of a suitable catalyst and solvent to form tetrahydrolipstatin; note line 16 column 6 to line 2 column 7 of the patent. The patent provides sufficient teachings to carry out the claimed process wherein the current orlistat is the same as the prior art tetrahydrolipstatin(compoubd Ib in column 2 of the patent); and the current microorganism used for the fermentation is the same as the prior art microorganism, i.e., streptomyces toxytricini. Thus, the claimed process would be deemed obvious over the teachings of Hadvary et al.

No claim is allowed.
